ACKNOWLEDGEMENT

The submitting owner acknowledges that DNA samples are submitted on the condition that all profiles derived from the samples will be incorporated into the Massey database to be solely used for the verification of the parentage of any animal at any time that is applying for registration with the New Zealand Gypsy Cob Association Inc. Massey will store the samples indefinitely and will only release them if requested in writing to the owner as identified on this form. Massey and NZGCA will maintain client confidentiality at all times. The owner verifies that the animal information submitted on this form is true and correct. Registration is subject to the NZGCA committee being satisfied that the submitter has declared all liens and encumbrances related to the horse, if any, and that the submitter has full authority to register the horse. A false declaration may result in the registration being declined. This profile is authorised for use by other breeders for parentage verification purposes only
